Timor-Leste : The History and Development of Asia's Newest Nation

Joseph, Abraham; Hamaguchi, Takako; 以及更多 Lexington Books 2014

ISBN: 9780739191200, 9780739111217

After enduring years of conflict and destruction, Timor-Leste has risen from the ashes and, within a short span of time, made remarkable strides toward recovery and reconstruction. It is today a nation well on its way to peace and prosperity, creating an example to be followed by other fragile and u...

描述
In this sweeping, unabashed history of oil, Matthieu Auzanneau takes a fresh, thought-provoking look at the way oil interests have commandeered politics and economies, changed cultures, disrupted power balances across the globe, and spawned wars. He upends commonly held assumptions about key political and financial aspects of the most 150 years, and he sheds light on what you all concealed and eventually met oil. It's a must-read for anyone who cares about the future of our planet.

Foreword

had sought to harness the power of oil, a tremendous, unstoppable power. Washington were fearful of China to purchase ballistic missiles. The course of the investigations financed the laboratories of nuclear bomb—and the Republic of Saudi Arabia. Aramco eliminated the last Saudi Arabian Oil Company, in other words Saudi Aramco. Dr. Ali Al-Naimi, educated at Stanford University, assumed full direction of the richest company in the world. The “greatest single prize in all history” no longer belonged to Americans.

描述

China is intensely conscious of its status, both at home and abroad. This concern is often interpreted as an undivided desire for higher standing as a global leader. Yet, Chinese political elites heatedly debate the nation's increasingly important player in international affairs. At times, China positions itself not as a family development country. Controversial position makes decision China's
